process. Various economic reforms measures have been taken by the Government since 1991 aimed at accelerating economic growth, facilitating greater investment, enhancing competitive spirit, reducing level of poverty, generation enhanced employment opportunities, allowing higher private initiative and achieving great intergration with the world economy. Reforms have resulted in improved growth of the economy, a lower rate of inflation, an overall increase in flows of foreign direct investment, a significant improvement in the balance of payments position, accumulation of comfortable foreign exchange reserves and an all round improvement in the external debt indicators.

Economic reforms are meant to make Indian Industry efficient, cost effective and competitive. Therefore, these reforms will have positive impact on overall economic growth and employment in the medium and long run by way of encouraging efficiency, productivity and ensuring achievement of full growth potential.
